

Manufacturing Mass Finishing Solutions

Fabrication Services

Overview

All-Inclusive Partner for Custom and Contract Fabrication Services

Located in Kalamazoo, Michigan, CLM Vibetech was established in 1996 as a full-service OEM equipment manufacturer. Since then, we've added capabilities and facilities—transforming into an all-inclusive premier metal fabricating service provider nationwide. Our three buildings, with a combined 75,000 square feet capacity, and equipped with overhead cranes and high ceilings, enable us to take on almost any project for a wide range of applications.

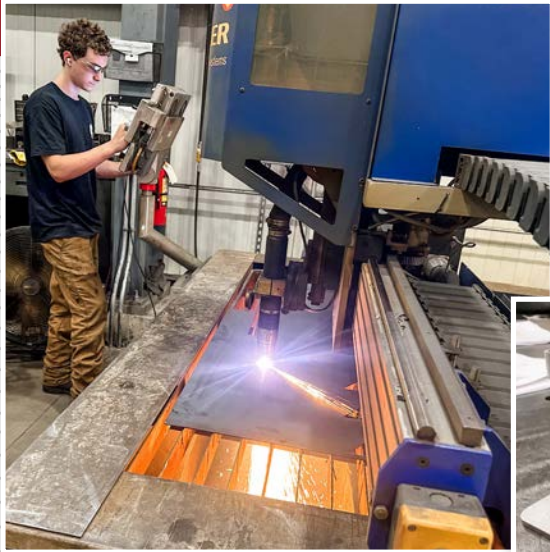

CLM Vibetech is a well-known and respected entity in the mass finishing industry, with strategic partnerships and distributors, which expands our engineering expertise, manufacturing capacity and competitive pricing structures. We provide solutions for a strong and growing customer base in a diverse range of industries, including medical, chemical, power, pharmaceutical, food, energy, aerospace, automotive, metal recycling, industrial and others that require specialized fabrications.

Quality Craftsmanship, Experience and Machinery

We are proud to employ seasoned craftsmen who have more than 100 years of combined fabricating experience and are skilled in a variety of unique and complex metal materials, as well as challenging designs. We have delivered hundreds of successful projects in a wide range of applications including: machine bases, work platforms, mixing tanks, chutes, bins, hoppers, stacks, brackets, railings, steps, gates, ductwork, part weldments and more.

Our capabilities include precision forming, fabricating, MIG and TIG welding, 3D CAD design and engineering, prototyping, machining, painting and blasting. Additionally, we have the equipment and machinery to satisfy customer needs and projects, including welding machines, 6' x 12' CNC high-definition plasma table, CNC shear, CNC press brake, CNC lathe, CNC mill, ironworker, hydraulic benders and plate rollers.

Increased Production | Lower Operating Costs | Enhanced Quality

Advantages

- Seasoned craftsman with more than 100 years of combined fabricating experience
- Three buildings with a 75,000 square feet capacity
- Overhead cranes and machinery to satisfy customer needs and projects
- Increased production, lower operating costs and enhanced quality
- Quality craftsmanship and experience

Transform Your Custom Metal Project with CLM Vibetech Fabrication Services

CLM Vibetech Fabrication Services enhance product quality, increase production and lower operating costs. With a long history of success, we take projects from concept to completion, providing solutions that deliver economical savings, leading to more efficient and cost-effective operations.
